A great experience with knowledgeable nurses attending to me and others.

A line problem on scheduling. The hospital & the entire staff is super excellent. I drive past Augusta Health Hospital & go 40 miles to receive medical treatment at UVA. Keep up the good work!! Please note I rated each category a 5 because they earned it. Keep up the good work!! \_\_\_\_\_

A lot of the questions really didn't apply to my visit. My family and myself were very much pleased with \*Dr. Paphitis.

A nice nurse named Melissa Richardson was a tremendous help during our visit. Her personality, medical expertise and devotion to her job is a model to follow. She went out of her way to ensure everything went right.

A second surgeon Dr. Nicholas Gerken conducted the initial patient assessment and patient history. Dr. Gerken receives highest marks for his ability to conduct a thorough assessment. Dr. Brown has always been attentive to my patient needs and demonstrates active listening skills.

Absolutely phenomenal experience during a very scary time for me. The staff was attentive & very friendly & \*Dr. Smith explained things in an easy to understand way. He answered all my questions & I'm very happy to be continuing my treatment with him & his team.

Actually, it was \*Dr. Sarah Cain who say me, not \*Dr. Margaret Plews-Ogan, my primary care doctor, whom I have not seen for so long now although she did a good job in caring for me before, so pls., in this survey, the credit is for \*Dr. Cain. Thank you.

Actually, this appointment was added so that \*Amy could introduce me to \*Dr. Davus who was unavailable on my previous visit a few days earlier. \*Amy has always been very professional and helpful during my periodic visit during the last 3-4 years.

After 2 1/2 yrs. of other consultations and treatment, I have received help finally with my gastro problems from \*Dr. Sauer. Praise the lord for him and his team.

After a prior negative experience with radiology a few years ago, in contrast this visit was excellent - I was seen promptly, and everyone was very friendly and efficient.

After having been a patient over the past 16 years for a variety of problems I have always found the care to be EXCELLENT. Thank you!

After I called the dr.'s office asking for results of my blood & urine test, I was given a call 2 days later. Dr. was very respectful - said he had been out-of-town. That's fine!

After my procedure, I asked a question of my provider through MyChart. I promptly received a follow-up phone call and my question was quickly answered to my satisfaction.

After SUFFERING with acute chronic idiopathic urticaria (CIU) for 7 weeks I had my first appointment with \*Dr. Tripathi - Wow! My world changed in terms of vision and plan. I am so grateful to be in her care. She followed up with next step within 5 days following our visit - a miracle happened with my \_\_\_\_\_ injections of Xolair - 5 days was such a short time and a blessing surprise - \*Dr. Tripathi made these injections possible so fast with focus, expeditious, and follow-up. My life changed from suffering and almost lost hope to renewed vision and future possibilities. The UVA Medical System of health care and its outstanding reputation will definitely be sustained and enhanced by the work and excellent patient care from \*Dr. Tripathi. I know I am blessed to have \*Dr. Tripathi on my medical team to lead the allergy/immunology.

Again I have wonderful medical professionals at UVA. Specifically, \*Dr. Matthew Barrett has been effective in helping me cope with Parkinson's disease. \*Dr. Carol Manning has proved to be invaluable in addressing my mental and emotional health. PLEASE GIVE BOTH MY BEST WISHES! I am grateful to have them! Larry R. Shortridge 9-3-2016

All members of \*Dr. Shami's team are fantastic. I always feel that what I have to say or ask is of importance and is considered before an answer.

All my healthcare experiences and needs have always been taking care of with the utmost excellence and professionalism since choosing UVA. Dr. Friel, Dr. DenHartog, Dr. Argo, Dr Henry, FNP Hedelt, RD Perry and staff are awesome! Dr. Henry went the extra mile (literally) and ran a 5k with me on the 4th of July to help me get back on track physically. I consider myself blessed to know such caring people.

All of the questions I did not answer where information I was given years ago. All of us who deal with our Transplant team are well prepared for what is ahead....as well prepared as one can be, given the bumps in the road we all deal with.

All of you were so great with \*Troy and my family you done a great job with all his needs we are very thankful.

All staff were very friendly and professional. \*Dr. Murphy and \*Dr. Darby were great!

All the dr.'s we see are very good but \*Dr. Julio S\_\_\_\_\_ has to be the best ever we love him and he really does care.

All the ladies from the registration desk to the nurses were awesome. Especially Angela Collins, and the two ladies at the front desk of the breast clinic at the front door who puts your arm bands on they are great!

All the UVA Dr.'s, nurses, staff have been the best. My husband and I are very pleased that we have switched from Fredericksburg Hospitals and Dr.'s to UVA. Should've done it sooner!! 5 stars from us! 5 stars.

Although I am elated that I won't be returning to UVA Health System due to being cancer free shall miss all the lonely people who I consider friends. I've been coming to your facility since Sept. 2010. In my humble opinion \*Dr. Ben Kozower is the best as is his staff. I wish him the best in his future endeavors as he too shall be leaving UVA.

Although I came to UVA because of its PAE research program with Dr. Haskell, I am transferring my care from Indiana to UVA's Urology Department. I requested Dr.Krupski accept me as her patient and was willing to do so.

Although I received a devastating diagnosis at the appointment, I came away feeling positive because of the time, concern, and knowledge of \*Dr. Sarah Jones and others I was in contact with at UVA that day.

Although this was an "emergency" appointment, late in the day, and \*Dr.Laurie was standing - in for my regular primary care physician, she was completely helpful, sympathetic and thorough she took extra time and care to assure my receiving the appropriate follow up care.

Always a extremely positive experience. Dr. Ted Burns is very interested in all of my concerns, very patient listening to me. I am very confident and assured that Dr. Burns has my best health interest at heart. I have been blessed with Dr. Ted Burns as my Neurology professional.

Alysia, the NP that works with Dr. Duska now (since December) was very warm and knowledgeable - I felt she also cared about my health and visit, just as Dr. Duska.

Amazing - Both the resident & attending! So thoughtful & knowledgeable!! They each took so much time with our child & family! They should both be commended! The resident's name was "Ben". I forgot the attending's name but he had 5 children. \_\_\_\_\_ Just wonderful!

Annual visit with \*Dr. Bowman always goes well. He explains blood test and what we will watch closely. I am doing well now with no kidney problem.

Another excellent experience with \*Dr. Wilson. We'll be back!

Any problems or questions I have, I will discuss it with \*Dr. Hays.

Any time I have visited Dr. Miller, she has been interested and concerned with any problems I have had or am having. She is very cordial and professional. I always feel as though I am receiving the best care possible.

AP \*Echols saw me & did a very good job - she is one part of my chemo treatment - everyone at the facility treats me great -

Appreciate the immediate responsiveness for to see \*Dr. Sutherland very collaborative thorough, excellent care.

April was my first visit with Dr. Wolf and UVA Med Ctr. I moved/retired to Charlottesville from Pittsburgh and in Pgh had wonderful UPMC doctors. This is the reason I selected UVA. I exceptionally like the online communication with Dr. Wolf, able to view test results and send messages if need be.

Apt. was completely satisfactory. \*Dr. Post is the very best, most competent physicians - a real jewel. UVA is fortunate to have her as I am.

As a cancer survivor, I continue to receive excellent follow-up care at the Emily Couric Cancer Center and I am grateful for this.

As a UVA nurse, I am happy to report Dr. Kimple is not only very competent, he has a reassuring, compassionate manner. I feel comfortable asking him any questions. Dr. Swamy is the fellow that sees me prior to Dr. Kimple. He is very attentive and careful to get the details right. Also, both of them have a friendly manner and good sense of humor! I never feel rushed which is nice. I also feel they are respectful of my opinions and input. I have already referred a patient to them -- to my daughter. Ahh, genetics.....

As always I feel that I receive excellent care from \*Terran Sims and all of her staff.

As always you have the BEST! Health care professionals on staff and \*Dr. Penberthy is a joy and a blessing to me! 100% gracious! Thank you!

As always, Dr. Post and her team provide extremely competent, compassionate and friendly care.

As always, I have Dr. Townsend and all the people that work in the ID Clinic to be the top notch professionals that you would expect from an outstanding university hospital such as UVA Medical Center. I credit my continued life to these doctors as they were able to bring me from a very low t-cell count in 2005 to over 1000 t-cells in 2016. I will forever be grateful to all the professionals at UVA.

As always, I was very impressed with Dr. Gwathmay and her attention to my health problems.

As always, received the best care possible (in my opinion) during my visit with \*Dr. Charles Rose and staff.

As always, the various facilities, professional personnel and processes connected with UVa Health System continue to excel. I can't find the words that adequately express my joy with every experience and my gratitude to every professional I have had contact with. I am so fortunate to have the privilege to place my health care in your exceptional hands. Please continue the extraordinary work, and thank you!

As during previous visits with \*Dr. Wooten, the examination seemed to be especially thorough and the advice most beneficial. The care and assistance provided by everyone was outstanding in every respect.

As evident by my positive responses to every question in this survey, I received excellent care in this appointment. I have been a patient of \*Dr. Fountain since 2005. My responses reflect my experience in every appointment with \*Dr. Fountain.

As I have already reported, I found Julia to be exceptional. Not only is she highly qualified at what she does, she is gentle and extremely sensitive to the needs of the patient

As I put in my comments above, I was treated like a queen. From the receptionist, to my pre-op nurse, to my various doctors before & after the operation, to my post op nurse, to the aide who wheelchaired me to the curb for our car. Courteous & friendly--but efficient & professional in their jobs. Thoughtful of my needs & comforts. Nurses & doc's with great teaching for me & my husband, encouraging questions to be sure we understood--even twice showing us how to put on that WEIRD contraption they call a sling!

As I said in the 1st part of this survey, \*Dr. Pudhorodsky is not my usual rheumatologist, but filling in, so I was pleasantly surprised by the time he spent with me and the thoroughness of his exam, including reviewing my chart. The staff at Pantops are great!

As much as I have been to the doctors and to UVA hospital outpatient in both Charlottesville and Culpeper, I have no clue what this survey is for. I don't have a problem at all filling it out for you but I've got to know on which date and for which appointment/test you want me to fill it out for.

As previously stated in a hr. of commendation to CEO, \*Mrs. Ratliff is an exceptional NP!

At the age of 89, I have seen a few doctors along the way. I've been impressed by all those I selected for my health care, but Dr. Tucker may be the best yet.

At UVA Medical Center, I feel comfortable & confident with the care I receive and the results from my surgery could not have been better. I put total faith & trust in UVA Health care as a whole. They have saved lives of family members and friends when other medical facilities had no answers or solutions to the problem. I have the best 12 year old nephew thanks to the incredible NICU Team. He is truly a living miracle and my family is so blessed to have him in our lives. I have nothing but great admiration and gratitude for UVA Health Systems!

At UVA, if all staff; medical, customer service, office personnel and hospital staff; can be evaluated by services received at \*Dr. Ailawadi's office and the care I received at the hospital; you "guys" get an A+ in my book. Thank you & my pain is totally relieved!!

Audiologist was great.

Barbara Barnett Fitzgerald is the best, efficient, caring and returns calls in a timely manner.

Barbara Post is an exceptional physician and I feel incredibly lucky to be part of her practice . she's bright , thorough , takes my questions or my thoughts very seriously , and makes me feel like a valued patient in her practice . Who could ask for more ! my friends to see her , and my husband who sees her all feel as I do . I hope she gets the recognition that she deserves . UVA is very fortunate to have her on their staff .

Barbara was great coordinating scheduling

Barbara was very pleasant and professional.

Because I am in good health, I see the doctor 2 x during the year. I see the lab every month for my B12 inj. I am very pleased with \*Dr. Babar and the lab staff are always very friendly.

Becky Compton, NP was professional, thorough, knowledgeable and an overall delight. Assisting her was Melissa Brock who was equally professional and also a delight. Please don't let these two get away. Family Medicine is fortunate to have these two. I appreciate being seen so quickly.

Been coming to Charlottesville for several years, love the hospital, our \*Dr. John Densmore, and the staff. Best hospital for our needs.

Been coming to UVA since 2007. I feel so blessed to be cared for by the people of the Cancer Center.

Been with her for 10+ years. Trust her completely. If she moved to another hospital I would follow her. If reassigned to a different doctor, I would leave UVA. Have 40 years experience with cardio doctors and \*Pam Mason is the best I've ever had!

Best doctor's office every. \*Dr. Fisher is the best doctor my has every had.

Best office around. \*Dr. Fisher & \*Dr. Martinson are truly amazing. Genuinely care about the children. The office needs improvement on the phone system - otherwise amazing.

Beth Jaeger-Landis, NP is an asset to this doctors' group. She is incredibly knowledgeable about women's health, very patient, expresses concern, and makes the patient feel in good hands. 5 stars!

Bethany at Zions Crossroads was so friendly and happy that the experience was anxiety free. I don't know how she can keep up that demeanor all day every day every patient, but she's the best.

Bethany goes above and beyond to get the best image. She does a great job.

Both \*Dr. Copley and staff were excellent in all areas! I have full trust in \*Dr. Copley.

Both \*Dr. Lyons (internist) and \*Dr. Sue Brown are terrific! I really appreciate their care and attention to details.

compliments to Mohammad (Mohammed?)

Concerned about shoulder splint & correct way to wear/use it. \*RALPH was understanding, adjusted it for me & made sure I was comfortable before leaving!

Coordination with the Radiation Dept would be helpful. Requirements are different, and the patient is sometimes caught in the middle if undergoing radiation and chemotherapy simultaneously. I assume this registration process refers to that on the first floor upon arrival, not the second.

Corrie Parker is the greatest

Could not ask for a health provider. D.r Kapour's assistant Dr. Xiaoying Lu was very knowledgeable of my condition and explained in a very understandable manner. Liked her concern better than any assistant that I have seen there.

Described everything that was going to happen. Very friendly nurse, \*Elizabeth with a "Z." I didn't even feel the IV when she put it in my arm, she was that good.

Desk workers and patient care workers were friendly and interacted well personally with me. I observed this behavior around me with other patients and it made a welcoming atmosphere for my visit.

despite Dr. Miller I felt that I received good care overall. I would definitely not want to have him be involved in my care from this point on

Discussions about Rx's generally aren't necessary b/c they're ongoing & I've been on them for many years. However, \*Dr. Kirby is ALWAYS willing to discuss them if I do have questions/concerns.

Do NOT ever let \*Seki Balogun retire!!

Doc Carlson is extremely knowledgeable when it comes to different aspects of my illness. This was my first visit with Dr. Green and I am so thankful to have him as my new PCP. This was my first visit with Dr. Green and I am so pleased to have hime as my PCP as my previous PCP left and I have not seen a PCP but have had excellent care from the nurse practioners associated with the practice but felt it was time to see an MD for some of my health issues.

Dr. Green's office staff and assistants were very professional, and thoughtful of my needs at the time. I only have one question, why is there not an appointment to discuss the overall results of blood tests since most of the information is not clear for everyone? When a result is either too low or high I would think the doctor or nurse would want to point that out and explain it more thoroughly, otherwise patients tend to worry. Most of the time it is indicated everything is fine, when there may be concerns.

Dr. Greer and everyone in the office were helpful, professional and very respectful.

Dr. Grice is the absolute best doctor that I've ever had. He makes himself available to his patients- I feel confident knowing that he or his nurse will return my call/email within 24 hours. He also has a great bedside manner. He doesn't just throw some pills at me and send me on my way; he recommends different treatments, tests, procedures, etc to make sure I get the best treatment available. This survey doesn't capture the rest of the care experience that has been less-than-ideal for me over the last year: dismissive specialists, desk and nursing staff with body language suggesting I'm interrupting their day, awkward waiting areas that position me to easily be able to hear someone else's sensitive physician discussions, computer systems that shut down unexpectedly, MyChart mishaps that reveal to me a non-constructive discussion between another provider and staff about how unhappy I was with the responsiveness I experienced... Dr. Kon is thoughtful, supportive, caring and bright; I look forward to system operations enhancements that allow her to do her best work and me to be my healthiest self.

I was not satisfied with the diagnosis and instructions (or lack of) from Santara so I went to my PCP \*Dr. Lepsch. He saw me one hour after I call diagnosed me correctly and told me exactly what to do to heal correctly.

I switched from Augusta Health to UVA because of the level of care provided and the courtesy of the staff. Everyone that I speak to in the course of an appointment: the registration staff, the receptionists, the nursing staff and especially Dr. Grice are very courteous and friendly. They make me feel welcome in their office and are genuinely concerned about my health. Dr. Grice spends ample time talking to me about my care, allows me to participate in my treatment plan, values my opinion and takes any new pains/injuries very seriously. I actually look forward to my appointments because everyone is so upbeat and positive. I am very thankful for their care.

I thank God that I ended up seeing Dr. Landen, I started to see another doctor, his staff was cold, the first appointment I had with him was snowed out, so feeling frustrated with his staff's acting like they were too busy for me, I found Dr. Landen, what a wonderful man and doctor, his staff is excellent too. I think dr Kirby is the best she cares about you and wants to help you.

I think Dr Wilson is wonderful! and all those around her listening, reviewing and aiding her in my care! and she is also genius in her efforts to resolve my lichen planus issues!

I think Dr. Pinkerton is the best doctor I have ever had. She not only listens to concerns but also anticipates problems. I have sent messages to the office with MyChart and I get answers back promptly.

I travel from UT to see \*Battle 1 X a year for my check-ups. I had my open heart surgery at your hospital instead of in UT where I live. \*Dr. Battle was my cardio-MD in UT when he moved here I followed his care to your hospital. \*Adrienne his nurse is also excellent!! \*Adrienne schedules my apt. every year I email her in April and schedule for Sept. \*Dr. Battle & \*Adrienne accommodate my schedule as it is a 14 h. drive from UT to Charlottesville. The staff I have been involved with on campus all rate a 10 with me and my wife. I was a cancer patient in remission (almost 5 years) - I have a whole "team" of excellent doctors due to the cancer. I value \*Jen Prol as part of my team just as much as I do all my other doctors. Most of the rest of my "team" of doctors were accumulated to monitor cancer/cancer after care. I need \*Jen Prol to be the person on my team that monitors all the other aspects that those others do not (e.g., oncologist, surgeon, gyn. all tend to be doing more cancer after care whereas \*Jen monitors me for all the "normal" tests such as cholesterol, BP, etc. I need her as much as them & she's great

I was able to communicate with Dr. Campbell through email prior to appointment.

The joint replacement class/program is superior, so well organized. The patient class helped so much for one to be prepared and ready for surgery. Doing the exercises prior to surgery was so helpful. All staff from pre-operatively thru post-op were fabulous, friendly, caring, helpful, respectful, etc. I truly appreciate your facility and personnel on every level. We were particularly impressed with medical student, \*Aaron, pediatric resident, \*Dr. Hoke, and pediatric nephrologist \*Dr. Charlton (who spent the most time explaining our daughter's illness).

When I had questions prior to my procedure I was VERY pleasantly surprised by how quickly \*Dr. Diduch replied -

When I went for my regular check up I was having problems with my right shoulder. \*Dr. Jaffe worked with my arm and checked it out good sent me for an x-ray after that made appointment an appointment to have a MRI then was told about a tear of my rotation cuff and was sent to \*Dr. Stephen Brockmeien was told by him for me to continue doing what I was doing at home taking care of my shoulder and if it needed to be looked at by him later for me to call for another appointment because there was steps that would be done before he would so surgery. \*Dr. Jaffe is a great doctor and we need more like her.

Whenever I have questions I can email \*Dr. Leone about concerns, medication, injections given by \*Dr. Jones and always get prompt answers. I like that they care at the Neurology Dept.

While \*Dr. Gloudeman (surgeon) is not my primary care Dr., I see him for colonoscopy etc., think very highly of him. He is very understanding and caring of my needs! Doesn't rush thru time spent with my visit, which I appreciate.

While I don't particularly like going to the hospitals, or doctor visits, it's always a pleasure to visit with \*Dr. L. Whitehurst.

While I feel like Dr. Wilson was very helpful, she was extremely rushed in working with me. She was speaking so quickly that I was struggling to digest everything she was saying before she was ready to leave the room. There were also multiple people involved in my care: a nurse, a resident, another student, and the doctor. They came in at different times and I didn't know to what extent I needed to tell my story to each of them and/or to what extent they communicated with each other. I know that this was an annual check-up, but I felt very much "processed" rather than "cared for."

With \*Dr. \_\_\_\_\_ Courtney I felt well-cared for. She listened to what I had to say; worked with me in deciding what to do. However, I did have a CT scan to see if there was any indication of cancer and they were slow getting back to me.

Wonderful experience! \*Dr. Park is wonderful! Thank you to my drs. team: \*Shauna, \*Raven, \*David and \*Reggie. Also, \*Elaine, \*Gary, \*Susy and \*John. Hope I didn't forget anyone!
