

Excellence in Clinical Trials: Practical Skills for Principal Investigators

Who Should Attend:

- First-time Principal Investigators (PI) or aspiring PIs for human subjects clinical research
- Clinical researchers looking to enhance their skills in managing clinical trials
- Investigators seeking to build a solid foundation in clinical research best practices

Why Attend?

Learn from experts

Collaborate with peers

Comprehensive training

Build Your Team

Learn the essential strategies for assembling a strong and effective research team. Discover how to build and sustain collaborative relationships with various stakeholders.

Clinical Trial Financials

Gain insights into budgeting, funding, and financial management for clinical studies. Understand the importance of feasibility assessments.

Document Control

Understand the rationale and learn processes for keeping accurate, organized, and compliant study documentation.

Study Success

Learn best practices for managing your clinical trial from start to finish.

Program Details:

Dates:

April 24, May 1, May 8, May 15

Time:

3:00 PM - 5:00 PM

Location:

MR5, Room 3005
(In-person only)

Let's build your path to success in clinical trials

Space is limited-
Apply Today!
