

2016 Medical Education Week

Monday, February 29 – Friday, March 4, 2016

Monday, February 29

Medical Education Poster Session

Beginning at noon, posters will be on display outside the Claude Moore Health Sciences Library.

Opportunities and Challenges of Competency-Based Assessment

(Medical Education Grand Rounds)

12:00 noon – 1:00 p.m.

Room G1/G2, Jordan Hall Conference Center

Presented by Kevin Eva, PhD, Hon. FAcadMED, Associate Director and Senior Scientist, Centre for Health Education Scholarship; Professor and Director of Education Research and Scholarship, Department of Medicine; Faculty of Medicine, University of British Columbia; and Editor-in-chief, Medical Education.

Having recently undergone a rigorous self- and external assessment of our program here at UVa SOM, this is an excellent time to discuss future directions. In this talk, we will discuss the movement toward competency-based assessment and the intended/unintended consequences that come with it. The opportunities arise from being explicit and broad in focus, increasing emphasis on observation, and using assessment as a pedagogical intervention. The challenges the field continues to struggle to overcome include reliability problems, reliance on subjectivity, and difficulty in defining specific competencies. Following this presentation, participants will be able to: examine the literature regarding the adequacy of defining performance as a series of independent competencies; discuss the role of context and the implications for whether or not humans can be expected to make absolute judgments about competence; and consider how we might use a competency-based assessment framework to deliver feedback in a manner that promotes receptivity and quality improvement. Lunch will be served; registration is required. Register [here](#).

Tuesday, March 1

Medical Education Poster Session

Posters will be on display outside the Claude Moore Health Sciences Library.

Medical Education Research Presentations

12:00 noon – 1:00 p.m.

Room G1/G2, Jordan Hall Conference Center

· 12:00 noon – 12:30 p.m.: “Adaptive versus Volume-Based Training in Surgical Simulation: A Randomized Controlled Trial” and “Cost-Effective Open Vessel Ligation Simulator Develops Transferrable Surgical Skills in Novice Trainees,” presented by Helen Kim, Premedical Student.

· 12:30 p.m. – 1:00 p.m.: “Competency-Based, Multimodal Assessment of Pediatric Otoscopy Skills: A Multi-Institutional, Cross-Specialty Study” presented by Meg G. Keeley MD, Assistant Dean for Student Affairs, Professor of Pediatrics, Director, Fourth Year Electives Program.

Lunch will be served; registration is required. Register [here](#).

Wednesday, March 2

Medical Education Poster Session

Posters will be on display outside the Claude Moore Health Sciences Library.

Medical Center Hour/ The Brodie Medical Education Award Lecture/Medical Grand Rounds

12:15 p.m. – 1:30 p.m.

Auditorium, Jordan Hall Conference Center

“Transforming Clinical Education: research translation and social activism,” presented by Dr. Paul Worley, Dean of the Medical School, Flinders University, Australia; this year’s Brodie Medical Education Scholar Award Recipient. For more information, please visit [this page](#).

Medical Education Week Reception

5:00 p.m. – 7:00 p.m.

Second-floor Reception Area, Claude Moore Health Sciences Library

Poster presenters will be available at their poster, for discussion, from 5:00-6:00 p.m. At 6:15 p.m., remarks will be made by Dr. David Wilkes, Dean of the School of Medicine and Dr. Paul Worley, this year’s Brodie Award Recipient.

Thursday, March 3

Medical Education Poster Session

Posters will be on display outside the Claude Moore Health Sciences Library.

Medical Education Research Presentations

12:00 noon – 1:00 p.m.

Room G1/G2, Jordan Hall Conference Center

· 12:00 noon – 12:30 p.m.: “Number Needed to Teach: How should we describe educational outcomes?” presented by Vaia T. Abatzis, MD, Assistant Professor of Anesthesiology.

· 12:30 p.m. – 1:00 p.m.: “The Room of Errors: Interprofessional Training to Enhance Patient Safety” presented by Julie Haizlip, MD, MAPP, FAAP, Clinical Professor of Nursing, Associate Professor of Pediatrics, School of Medicine, Co-Director, Center for ASPIRE.

Lunch will be served; registration is required. Register [here](#).

Friday, March 4

Medical Education Poster Session

Posters will be on display outside the Claude Moore Health Sciences Library.
