

**In Partnership with the
Department of Public Health Sciences**

Support Available to Area Nonprofits

Help Finding Grant Opportunities

Looking for a grant? We may be able to help.

Research Assistance & Literature Reviews

Requests for research assistance and literature reviews should be submitted four weeks before the research or literature review is needed.

Volunteer Opportunities

One-time or long term volunteers available. One-time event volunteer requests should be submitted at least two weeks in advance. Long-term volunteer requests should be submitted a month in advance.

Internships

Requests for student interns should be submitted at least a month in advance. Internships both paid and unpaid.

All support is available based on student availability and interest.

The mission of the Department of Public Health Sciences is to provide excellence and leadership in innovative research, education, and community engagement strategies to advance clinical care, patient outcomes, and population health.
