Meeting ID: 927 4018 2908

Passcode: 285036

*Lunch will be served from noon-12:30 p.m.

Cancer Genetics to Guide Therapies and Diagnostics for Breast Cancer

Ben Ho Park, MD, PhD

Benjamin F Byrd Chair in Oncology, Professor of Medicine, Division of Hematology/Oncology, Vanderbilt University Medical Center

Host: Sarah Lynch, PhD

Five Reasons to Attend this Seminar:

- 1. Learn how to leverage DNA alterations in cancer for diagnostics and therapeutics.**
- 2. Understand the goals of therapy when we give chemotherapy first for newly diagnosed patients with early-stage breast cancer.**
- 3. Learn a little history about digital PCR and next-gen sequencing.**
- 4. See the cool Zoom backgrounds Dr. Park has been using since the pandemic.**
- 5. Learn some fun facts about Dr. Park like what are his dogs' names? Does he really have an evil twin? What is his favorite pastime?**

If you have questions or feedback, or if you would like to host a seminar in the future, please email Jane Hebllich at eh6k@virginia.edu for available dates. Potential hosts are strongly encouraged to invite diverse speakers.
