Meeting ID: 927 4018 2908

Passcode: 285036

*Lunch will be served from noon-12:30 p.m.

Break Through Cancer with “two birds, one stone”: Integration of Targeted Therapy and Immunotherapy

Jean J. Zhao, PhD

Professor of Biological Chemistry & Molecular Pharmacology,
Harvard Medical School
Department of Cancer Biology
Dana-Farber Cancer Institute

Host: Roger Abounader, MD, PhD

Five Reasons to Attend this Seminar:

1. Learn about the roles of PI3K isoforms in cancer.
2. Get insights from GEMMs of human cancer about targeting therapeutic resistance.
3. Discover systems biology and pharmacology approaches for targeting kinase signaling in cancer.
4. Learn about new strategies that combine targeted therapies with immune therapies.
5. Meet a highly accomplished and renowned cancer researcher.

If you have questions or feedback, or if you would like to host a seminar in the future, please email Muzet Felgar at mf8uh@uvahealth.org for available dates. Potential hosts are strongly encouraged to invite diverse speakers.
