INNOVATION AND IDEAS

REMOVING THE “NO” FROM INNOVATION.

UVA Health is excited to launch our innovation and ideas competition—**Spark**—a competition to help bring your great ideas to life.

Think of the last time you said, “What if” or “If only.” Share those thoughts and ideas through Spark. This competition has a focus on improving our research environment. We want to hear ideas from every part of the health system—disrupt the norm and create positive change. Learn more and submit ideas at sparkuvahealth.uvahs.org
