

UVA Voice Center Hands-On Stroboscopy & Voice Course

April 27 -28, 2024

**652 Peter Jefferson Parkway, Suite 140
Charlottesville, VA 22911**

Join us at the University of Virginia in beautiful Charlottesville for the UVA Voice Center's Stroboscopy & Voice Course. This two-day intensive course is designed to provide practical and hands-on education for speech-language pathologists and otolaryngologists in laryngeal anatomy, voice disorders, and the performance and interpretation of laryngeal stroboscopy.

The course will be punctuated by our celebration of World Voice Day on April 27 (Saturday), featuring a free concert at a local Charlottesville Venue!

Course Faculty will include the UVA Voice Center team as well as experts from a variety of related disciplines. Hands-on, small group instruction in both rigid and flexible endoscopy will be provided on both days of the conference with live volunteers.

This conference is appropriate for beginner through advanced-level clinicians.

Education Objectives

At the conclusion of this course, participants should be able to demonstrate:

- Emerging hands-on skill with rigid and flexible laryngoscopy
- A beginner-to-intermediate skill level in interpreting laryngeal stroboscopy
- A beginner-to-intermediate skill level in making recommendations based on interpretation of laryngeal stroboscopy
- An understanding of common voice pathologies and their subsequent treatments
