Dean's New Faculty Seminar Series

February 6, 2025

Brady Spencer, PhD

Department of Microbiology,
Immunology and Cancer Biology

*The role of the Group B
Streptococcal Type VII Secretion
System in Pathogenesis and Host
Response*

Jie Yang, PhD

Department of Biochemistry and
Molecular Genetics

*Visualizing Molecular Machineries
in Cellular Stress Response Using
Cryo-Electron Microscopy*

Each month, the School of Medicine will host a seminar highlighting two recently hired assistant professors to present a 30-minute introduction to their research programs. The goal is to introduce our talented new faculty to the broader research community and to seed new collaborations.

SCHOOL of MEDICINE

No registration required. Light refreshments will be served.
